ONLINE SHOPPING –

PLAN -

First of all, we need to decide what we have to buy.

PREPARE –

We have to fix a budget to spend the money for online shopping.

Find the best online app for shopping.

We have to look for the review of that app.

PROCESS –

Search for the product and add the product to the cart.

ANALYZE –

Check the product, price and review of the product.

Check for the quality of the product.

Product delivery date.

SHARE –

Add the address and full detail of the customer.

Payment mode can be online or cash on delivery.

If any damage happens to the product the exchange/refund offer should be available.

ACT –

Then the customer is good to buy the product.
